Subject: Concern Regarding Northeast Metro Tech Appointment Process

Dear Ms. Desiderio,

I am writing as a Massachusetts resident and someone who is also active in the Malden community. I'm concerned about the plan to appoint Jeff Donahue to the Northeast Metro Tech School Committee without publicly posting the vacancy or allowing an open application process.

Bypassing a transparent, community-inclusive process undermines trust and prevents qualified community members from having a fair chance to serve—especially given the nominee's recent unsuccessful run for local office.

I strongly urge the city to publicly post the vacancy, reopen the process to all qualified applicants, and uphold transparent governance for this important regional role.

Thank you for your attention.

Sincerely,

Nermin Ibreljic
26 Beacon St, Burlington MA 01803
