Subject: Malden Resident Comment on file 432-25 - Jeff Donahue's Undemocratic Appointment to the Voke

Hello,

I am writing to comment on file 432-25 related to the Joint Appointment of the City Council and School Committee: Jeffrey Allen Donahue, 56 Tremont Street, Malden, as the Malden Representative of the Northeast Metro Tech School Committee.

It is my understanding that the procedure is for the City Council and School Committee to select a replacement representative with non-binding input from residents. As a resident and constituent I feel the Mayor's approach is robbing constituents of their input and democratic voice.

The city should perform a survey to allow more candidates to make their case and for residents to provide their non-binding vote to the Council and School Committee.

Thank you,
--
