Hello,

I am a Malden Pop Warner mom and have two boys playing Malden athletics.

I would like to see Roosevelt Park's existing lead contaminated soil cleaned up. I also think a grass field needs to be installed. I am not for artificial turf containing PFAS & toxic plastics. No toxins like that should ever be brought into Malden, especially for children to play sports on. Natural grass for children & natural grass for wildlife. Natural grass for clean drainage into our rivers.

Thank you for listening.

Kindest Regards,

Colleen Cook
