Subject: Please use natural grass at Roosevelt Field.

Please don't use artificial grass for reasons given below.

Also, is anyone being financially prodded for this at Roosevelt field since when the other two(2) fields are having natural grass? Hopefully not because the health concerns MUST override financial inducements.

Thank You.
Chris Kosta
90 Converse Avenue

Please write a public comment and let the City Council and Mayor Christenson know that simply removing 3 feet of soil isn't enough. Artificial turf will hurt our children, our environment and is an anti climate action project. Ask the council members if they took the time to listen to the expert testimony at the Board of Health meeting? Why is Roosevelt Park slated for plastic artificial grass when Devir Park and Trafton Park are getting all natural grass fields?
