Subject: Please make progress on Roosevelt Park

Dear City Councilors,

I am writing to urge you to make progress, any progress, on the Roosevelt Park project.

It has been four years since I attended the community meeting at the Salemwood cafeteria where this project was being presented and discussed and I am disappointed that so little progress has happened. So much time has been wasted. So much expense has been incurred because of these delays. Please pass the needed resolutions to end the delays and get the remediation started. It is a tremendous waste of this centrally located resource to have the park fenced off and in unusable condition for so long. My personal experience using the park for athletic practices five years ago make me prefer the turf design as full use of the park by multiple groups often wrecked its grass, but it is vital that this park be available for future athletic use whatever the surface. Please make progress on this. Thank you.

Sincerely,
Rick Berliner
