1.	Lack of preparation by petitioners, i.e., incomplete plans, failure to meet with Ward City Councilor and neighbors to resolve issues and address questions before public hearing.
2.	Due to the on-going and extensive build-out trends in Malden, residential development proposals are very aggressive and challenge existing zoning, specifically, dimensional controls for density and open space, parking requirements, and ledge removal.
3.	Limited impact in zoning amendment process.

8. **GOALS:** Describe three goals this Board/Commission has for the year ahead.

1.	Review draft Open Space & Recreation Plan Update (2025) and prepare letter of review.
2.	Continue to apply the provisions and standards of the City zoning ordinance to all proposals, to ensure reasonable development while maintaining the character of the neighborhoods and viability of business and industrial districts.
3.	Begin process of amendments/updates of the Master Plan/Comprehensive Plan, working with Office of Strategic Planning and Community Development.
