1.	Lack of preparation by petitioners, i.e., incomplete plans, failure to meet with Ward City Councilor and neighbors to resolve issues and address questions re: proposal.
2.	Due to the on-going and extensive build-out trends in Malden, residential development proposals are very aggressive and challenge existing zoning, specifically, dimensional controls for density and open space, parking requirements, and ledge removal.
3.	Limited impact in zoning amendment process.

8. **GOALS:** Describe three goals this Board/Commission has for the year ahead.

1.	Review Planning Board Rules & Procedures, including fee schedule; amend, streamline and update where necessary.
2.	Continue to apply the provisions and standards of the City zoning ordinance to all proposals, to ensure reasonable development while maintaining the character of the neighborhoods and viability of business and industrial districts.
3.	Explore economic feasibility of amendments/updates of the Master Plan, working with Office of Strategic Planning and Community Development.
