No I really don't think that the politicians in Malden care what I have to say. They don't care about the people in the neighborhood adjacent to Roosevelt Park. They don't care about the Charter School neighbors battling to keep people from blocking their driveways, they care about their friends who want favors and themselves. I have seen this over and over during the 62 years I've lived in Malden.

Subject: Fake grass at Roosevelt

As a citizen of Malden, I am writing to let you know that I oppose the artificial plastic grass that is proposed for Roosevelt Park.

It is the complete opposite of the "green" direction Malden claims to be heading.

I would like to know your answers to...How birds find worms in plastic grass? ...let me tell you... They can't

How do squirrels bury acorns in plastic grass? ...They can't ..

How do children who want to enjoy the outdoor spaces, avoid heat burns while playing on the plastic grass? ..They won't..

How will neighbors avoid the heat from this large "heat island"?... They can't ...

How does plastic grass fit into the new "green" Malden?... It doesn't ..

Please stop arguing with concerned citizens who oppose the plastic grass, they are looking out for the health of community.

Sincerely

Mary E Fava
