Dear Ms. Desiderio, Please enter this note & read into the public record. Roosevelt Park like our other natural parks are jewels in our constantly developing city. Our finance committee needs facts concerning long term costs associated with the current plan of remediation & placing artificial turf & associated landscaping at Roosevelt Park. Our city council should not be allowed to intervene in this process. There needs to be analysis of the use of funding packages that have been made public by city hall's recent proposal. I am strongly against attempts by councilors Spadafora & Winslow to push through the proposal of installing artificial turf on Roosevelt Park. Respectfully submitted,

Len Merullo
134 Dexter St.
Malden
