Hi Carol Ann,

Can you please add the statement below to the public comments for tonight's city council agenda item 293-26

Thanks
Jim

Dear City Council,

I write to urge the entire council to fully support Councilor Sica's resolution 293-26. As a constituent who voted for the audit of the Commonwealth's legislature and given the majority of Malden voters voted for the override, I believe city leaders can send a clear message to state leaders.

This step became even more necessary when state leaders voted to limit the scope of the audit, after numerous attempts to block the state auditor from doing her job.

I look forward to watching the council pass this resolution this evening to send that message to state leaders that the peoples votes matter.

Sincerely

James Sumner
